Hoot Gibson in

"The Arizona Sweepstakes"

The Greatest Race of the Century!

A cross-country epic that will bring you to your feet cheering at the reckless, brilliant riding of Hoot and his famous Universal Ranch Riders. Up and down hill, over fences, ditches, and streams the horses and their riders dash—horsemen unscathed plunging to the ground, narrowly missing death beneath the on-rushing hoofs of fiery chargers. It marks Gibsons greatest display of horsemanship—a thrilling and exciting spectacle that will hold you spellbound. And what a love story hinges on that race!

Coming Next Wednesday, Oct. 27th,
"The Wanderer"

Coming October 29th and 30th,
"The Vanishing American"

Local and General

A Great Lakes steamer carried 508,000 bushels of grain on one trip from the head of the lakes. This equals ten solid train loads of grain.

Premier Brownlee has announced that there will be no fall session of the legislature but that it will be called at the usual time which would be some time in February.

Reports of splendid wheat yields have been very numerous during the week, in fact almost every farmer has a turnout that is worthy of a record. It is hoped to publish a comprehensive list of yields next week.

Saturday, October 30th, has been selected as Red Cross Tag Day in Champion and residents are asked to prepare themselves accordingly. There will also be an opportunity at the stores to join the society, the membership fee being \$1.00.

On Tuesday, October 26th, Buck & Howson, of Vulcan, will have on display at Mrs. Theriault's store, a complete line of ready-made dresses and coats for fall. Don't miss this opportunity of seeing the very latest in these lines. Hats to match costume will be available.

A stirring story of a wolf hunt comes from Snake Valley. E. Williamson, who was out with his wolf hounds, outstripped the dogs with his horse and killed the animal with his bare hands, the dogs arriving barely in time to help celebrate the victory. While every one has been aware that Mr. Williamson owned the fastest horses in the district, they were hardly credited with the speed developed in this instance if runner is correct.

A completed gravelled highway from Edmonton to the international boundary by the end of 1927 is a possibility, according to the program of the provincial highway department. The completion of the gravelled highway from Edmonton to Calgary will be carried out next summer, and the completion of the road south from Calgary to the boundary, some of which has already been gravelled will be made next year if possible.

The Champion elevators are getting very close to their capacity, the deliveries of grain having been extraordinarily heavy for the past eight days. It is hoped to avoid an actual blockade but more wheat must remain on the farms if this is to be accomplished.

More than 500 students for the Agricultural Schools of the province are now in sight, including the British boys who will go into training here the coming winter. The schools open at the end of October, and Raymond school, which has been closed for some years, will re-open this fall also.

Nearly 200,000 acres of home-stead land have been taken up by new settlers in the dominion lands area covered by the Edmonton agency in the nine months since the beginning of the year. The total filings were 1,240, including soldier grants, as compared with 741 filings for the same period in the previous year.

Sale of \$6,000,000 worth of Alberta bonds to a New York firm was consummated recently by Premier Brownlee and Provincial Treasurer R. G. Reed, at a price of 92.75 yielding an interest rate of 4.96 1/2 per cent, which according to the present condition of the bond market was deemed to be an exceptionally good price.

Year by year a steady advance has been made by the Alberta Division of the Red Cross in its Health Education Bureau. Demands on the Health Library increase at an encouraging rate from all quarters of the Province. The effect of a "Health-reading" Mother is bound to be felt in lives of her children, thus will carry over into her daily routine the lessons of maternity and child welfare she has studied. Over 2000 pamphlets are distributed per month in Alberta and each week Radio Health Talks are broadcast.

Wear a poppy on Armistice Day.

Ban.—In Los Angeles, California on Monday, Oct. 4, to Mr. and Mrs. W. A. Jones, a son, Mrs. Jones is a daughter of Mr. and Mrs. G. F. Smith.

J. Archibald of San Francisco, is on a visit to his brother John Archibald.

THURSDAY, OCT. 21, 1920

NOTES AND COMMENT.

The Calgary Power company is interesting itself in hydro-electric development along the Aldersyde branch. A power line is under consideration coming to Vulcan either by High River and Nanton, or from High River to Blackie and thence down this line as far as Barons. Steps are now under way to make a survey of the possibilities in the use of electric energy in the towns concerned.

The Ku Klux Klan are making history in Ontario, where three clansmen have been sentenced to penitentiary terms for an attempt to dynamite a Catholic church. We are fortunate so far in having missed the activities of this organization in the west and it is to be hoped we continue to do so. There is no need for this rather notorious order in this country.

The rumor that Premier Brownlee will resign in order to take a position with the wheat pools is persistent and many guesses as to who will succeed him at Edmonton are being made. This is one of the hills we can climb when we come to it.

Lethbridge has been included in the points from which coal will be shipped to Ontario, 2,000 tons being the quantity arranged for. There should have been a car or two of Champion coal in the consignment to make it right.

Edmonton has decided that no games of chance will be allowed in the near future at carnivals, etc., for the purpose of raising money for charitable purposes. Wheels of fortune being specially mentioned. Games of skill will still be permitted. Other parts of the country might well follow this example.

The early frosts in British Columbia are responsible for the absence of moderately priced ripe tomatoes and some other vegetables and fruits. Included in this list is onions, which have increased rapidly in price of late.

The continued weakening on the price of oil stocks in the face of apparent good conditions in the oil fields is arousing considerable comment. Present prices are the lowest for many months and it would appear the end is not yet.

Toronto Star says R. B. Bennett could have had temporary leadership of the Conservatives with very little opposition. The surprise at Ottawa is that the lonely western Conservative M. P. is holding off to eventually enter the race for the permanent job.—Lethbridge Herald.

NEWS NOTES

Coal produces no fewer than 500 shades of dyes.

One of the latest scientific discoveries is a chemical to stop bleeding instantaneously and thus prevent fatal hemorrhages.

J. G. Honey, the I.H.C. farming expert, will make another visit to this province in the near future. This year his itinerary will be confined to irrigated districts.

Of the water-power resources of the entire world, which have been estimated to be not less than 450,000,000 horse power only about 30,000,000 horse power is being utilized.

Hog cholera has broken out in Illinois and Iowa, due according to veterinary authorities to germs being carried from farm to farm by the recent floods and also by mosquitoes.

More than 100 financial men from across Canada, representing financial assets totaling more than two billions of dollars, met recently in Edmonton in convention, this being the tenth annual meeting of the Dominion Mortgage and Investments Association.

More school fairs will be held in Alberta next year. It was announced at a conference of government officials, fair directors, and agricultural school principals at Edmonton. The plan is to be developed and enlarged considerably, and it is expected that 10 events will be on the list for 1921, an increase of 15 over the present number.

W. C. HOSKINS

**THE
CHANDLER
SIX**

The 1927 model has arrived and it has the car markings of a car that will give long life service, comfortable to travel in speed if needed. The Chandler motor holds a record of travelling 1,000 miles, continuous running, on the Culver City, California, speedway in the record breaking time of 689 minutes. A speed of better than 80.0 miles an hour was sustained during the entire period. Start the motor. Listen to that whispering murmur under the hood. Hardly a sound! A mighty mechanism purring like a kitten!

The Chandler achieved a sensational feat in climbing Mt. Wilson (on which a government observatory is situated) and also established a new speed record. It is 91 miles by road from the toll gate (which was the starting point to the summit. Interesting are 144 sharp and treacherous curves, in making the climb. At no place is the grade of Mt. Wilson road less than 10 per cent, and on the steepest incline 16 per cent. A vertical rise from starting point to summit of 1639 feet. A strictly stock car was used to make the trip and covered the distance in 23 minutes, 48.01 seconds.

The Los Angeles Express challenge trophy was presented for breaking all previous records. The Chandler Six motor holds eight other records for similar performances.

In purchasing a Chandler motor car you are not buying a motor that is going through the experimental stage. The Chandler, from the commencement of business, have made a specialty of a six cylinder motor, and to-day it has reached that state of perfection which all owners of Chandler cars are proud of. Before deciding on your next car you should look the Chandler over. I will be pleased to demonstrate it to you at your convenience.

Now is the Time to Give

McCullough, Mrs. Manhart assisting. Delicately prepared refreshments were served, the hostess bringing a very delightful evening to a close at midnight.

Thanksgiving Day**Monday, Nov. 8**

Thanksgiving and Armistice Day will be observed on Monday, Nov. 8th. The recent statute fixes this joint celebration on the Monday of the week in which November 11 occurs. But a special observance has been requested for the actual day of Armistice. Hon. James A. Robb, acting premier, stated today that in accordance with the arrangements for Armistice Day made by his majesty the King, the people of Canada are invited to mark the occasion by two minutes of silence at 11 o'clock, Thursday morning, November 11. This is a special observance suggested by his majesty and is in addition to the regular holiday recognized by the parliament of Canada for the Monday previous.

Church Calendar Oct. 24

11 a.m.—Champion Sunday School.
3 p.m.—Service at Bow Valley.
7 p.m.—Evening worship. Subject: "Allen Gardiner's Favorite Text," being second in the series—Favorite Texts of Famous People, and telling how Psalms 51:10 helped a reckless navyman become an adventurous master.

An electrically operated machine has been developed to lay bricks at far greater speed than can be done by hand.

The Canadian Legion of the British Empire Service League are placing 100,000 poppies on sale on Armistice Day this year.

Wear a poppy on Armistice Day.

Price \$50.00 per acre, \$8,000 cash, balance arranged at 7 per cent interest.

Write for Complete List of Farms in this District.**The Champion Land Co.****A. W. JOPLING, Manager.**

FINAL CROP PAYMENT TO BE MADE BY POOL

Winnipeg—A total of \$850,000, representing a final payment of five cents per bushel on the 1925-26 crop, will be paid to farmers in Alberta, Saskatchewan and Manitoba, when the pool is announced following settlement of the central selling agency at the Winnipeg office.

One dollar per bushel was the initial payment made for the 1925-26 crop year, and this was followed by an interim payment of 20 cents per bushel and another interim payment of 20 cents, making with the five cents now given, a total payment of \$1.45.

J. A. McPhail, president of the Central Selling Agency, has issued the following statement:

"The final wheat pool payment for the 1925-26 crop year is being made from the three provincial offices. The central selling agency, which was the year on one Northern wheat, banked by William, after carrying charges and administrative costs have been deducted, is \$1.45 per bushel.

"A total of \$850,000 is being returned from the central office for distribution by the three provincial offices. Provincial administrative expenses, elevator and commercial reserve deductions, etc., will have to be taken from the amount returned to each province before distribution is made to the grower."

Members of the board were re-elected: Mr. McPhail, as president; H. W. Woods, Edmonton, as vice-president; and E. B. Ramsay, Edmonton, as secretary.

Mr. McPhail, Wood and Colin H. Barnard were re-elected the executive.

It was announced that statements will be issued in due course by the wheat pools with regard to the final payment for the 1925-26 crop year.

May Accept New Appointment

Hon. A. P. McNab Offered Place on Saskatchewan Local Government Board

Saskatoon—Hon. A. P. McNab, minister of agriculture for Saskatchewan, Minister of Public Works, and cabinet minister of foreign service in Ottawa, has announced that he has been offered a place on the local government board in succession to Hon. G. B. Bell, chairman, whose retirement will probably occur in the near future.

Mr. McNab said he had been giving the offer consideration for a month and an announcement as to his decision will be made soon.

Should Mr. McNab resign his place in the legislature, as will be necessary if he accepts the appointment to the local government board, it will fall to the state government in Saskatchewan City, and will, for the time at least, leave this city without cabinet representation.

The other members of the Local Government Board are: S. P. Crockett, and J. C. Bayne, both of whom have been from Southern Saskatchewan. There has been for years a feeling in Saskatchewan and Northern Saskatchewan, that at least one member of the local government board should be from the northern half of the province.

Competitive Cable Rates

Would Establish Direct Service to Canada For British News

Ottawa—"If the Governments of this Dominion and the United Kingdom would only see their way to establish a competitive rate on cable service between London and this country, we would have in this country a direct service for British news," declared Sir Robert Borden, chairman of Reuters' News Agency, in the course of an address before the Canadian Club.

The establishment of a competitive cable service between London and Canada, which would enable a greater volume of British news to be brought to this country direct instead of by New York, would, stated Sir Borden, be a fine act of public policy and a very beneficial one from an imperial point of view.

Canadian Ambassador Question

London—With a view to correcting an apparently wrong impression in Canada, The Morning Post states that there can be no possible objection to the appointment of a Canadian as ambassador resident in Washington to conduct Canadian business with the United States. Such an appointment, however, the paper states, is an innovation which suggests various possibilities in regard to the whole question of the empire's foreign policy. It is to be expected that the government will be asked to consider the matter, says the Post.

Stay Of Execution

Russell Scott is Again Saved From The Gallows

Chicago—Forty-eight hours before the time set for his execution and for the third time in 15 months, the hanging of Russell Scott for the murder of Joseph Markey in a drug store holding up, in which he was found sane after he had spent a year in a state asylum.

The man, who was a vaudeville act at 20, and a hoodlum man at 23, seemed little moved at the news of his new lease of life. So many times has he been jerked from the gallows back to temporary safety that the methods by which his execution has been four times postponed since 1921 have become largely incomprehensible to him.

Making Unique World Tour

Young Danish Sportsman Is Making Tour of the World

Sydney, Australia—Lars Thorslund, a young Danish sportsman who is on a Mersey trip around the world, has been booked to visit Australia, and is expected to arrive in Sydney on the 14th of May.

From here he will continue his route by steamer to New Zealand and then to the United States, with the intention of travelling the entire American continent from South to North on his wheel.

From the northern part of the United States he will travel to the south coast, proceed to England and from there back to Denmark.

Since starting from Copenhagen, he has visited the United States, Canada, Java, Borneo, China, Japan, and Java. He expects to finish his unique world tour in Copenhagen by 1928.

Canada Holds Envious Place

Stands Second in World in Development of Telephone

Montreal—Canada stands second in the world in telephone development, declared P. A. McPartland, president of the International Telephone and Telegraph Company, in his annual report presented at the opening session of the sixth annual convention of the association, which took place here.

"In 1925 there was 1,672,512 telephone lines in service in Canada, against 90,250 in 1921. This is an increase of 18.4 per cent."

"The total investment increased from \$167,678,229 in 1921 to \$192,385,178 in 1925."

"The question of transatlantic long distance telephony is still progressing."

Will Convene In December

Date of Sitting of B.C. Legislature Is Announced

Victoria—The B.C. Legislature will be summoned for the annual session December 16 and will then adjourn until January 18.

The "total investment increased from \$167,678,229 in 1921 to \$192,385,178 in 1925."

May Take Dispute To Higher Court

Alberta Act Fight May Go To Privy Council

Winnipeg—The Ottawa correspondence of The Tribune says: The Department of Justice is taking steps to prepare with the reference to the Supreme Court in regard to the constitutionality of the Alberta Automobile Insurance Act, as it relates to school funds and the like. The case, however, will not come up before the higher sittings of the court unless a special hearing is arranged meanwhile.

It is considered very improbable that the proposed legislation returning to the provinces its natural resources will be preceded with until the court decides on this question and it, as it possibly, judgment is appealed to the Privy Council by one side or the other further delay would seem likely.

Governor-General At Work

Arrives at Office at Eleven Buildings Promptly at Eleven

Ottawa—The Governor-General, Lord Byng, the governor-general in the east block of the parliament buildings are to be remembered. Under Lord Byng's regime the office were not used very much and most of the official business was carried on at Rideau Hall, Lord Willington's residence.

It is understood that while the office has been decorated Lord Willington will use the prime minister's office, and Hon. J. A. Robt, while acting prime minister, will use his own office in the finance department in the same building.

Now Plan To Complete H. R. ROAD IN 1927

Saskatoon—The new plan for building the existing line of the Hudson Bay Railway has reached the end of the road. The plan is to build the line from Kettle Rapids and extend it to the north end of the line, between the Rapids and Port Nelson this fall, and early winter.

The purpose of this is to reach the Limestone River which the concrete footings of the steel bridge to be built there can be put in this winter season.

Created a Viscount

LORD BYNG OF VIMY

London—The Canadian Press has learned from an unofficial but authoritative source that Lord Byng of Vimy had been created Viscount.

The former governor-general of Canada was received by the king to day and Lord Byng had lunch with his majesty.

The retired governor-general, who is 61 years of age, was created the first Baron Byng of Vimy in 1919, and was created Viscount of Vimy in 1921. He was created Viscount of Vimy in 1921.

Noted English Scholar Dead

Dr. Abbott Was Most Famous Headmaster of City of London School

London—Rev. Dr. Edwin Abbott, who was the most famous headmaster of the famous City of London School ever possessed and whose personal learning had an almost equal claim to the reputation of the school, died at his home in London on the 14th of May.

Dr. Abbott was born in 1839. He was educated at the City of London School in 1856 and was a member of the school from 1856 to 1859. He was elected preacher at Oxford University in 1872. He was honorary fellow at St. John's College, Cambridge University, 1912, and fellow of the British Academy 1912.

Find Gold In Volcano Dust

Russian Peasants Had Farm Destroyed by Recent Eruption

Berlin—Working day and night as they ran gold from the dust of a recent volcanic eruption, peasants of Kettle Rapids, on the Sea of Azov, are reporting their farms that were destroyed and as soon as this is done the peasants will continue laying rails to the Limestone on the existing grade.

When a recently extinct volcano near Kettle Rapids had been destroyed and as soon as this is done the peasants will continue laying rails to the Limestone on the existing grade.

Ban On U.S. Picture

Decide Not to Show Picture Showing British Escort of Troops

Renewed efforts devoted to lift the ban on the United States film "Plan of the Opera," the arrival of which a year ago caused a storm of protest in the press because British troops were used to escort it.

The British Cinematograph Exhibitors' Association voted finally not to show the picture. Representatives of Carl Laemmle, the producer, gave a statement that all parts of a film showing the British escort of troops had been obtained from the war office but the latter still stands by its declaration made last year that the use of the troops was brought about by a "clever, unscrupulous" advertising agent.

Repeating his previous arguments against the Anglo-Italian agreement, Sir Taffur says, "The Imperial Association government very naturally is troubled on learning that two great powers are entering into an agreement on their course of action toward a friendly country, which with them is not the League of Nations."

Solution For Canada's Population Problem

Providing For Youth Already Here Says Ontario Farmers

Toronto—The solution of Canada's population problems should be found not by expensive immigration schemes directed toward the South of Europe, but by providing opportunities for youth already in the country and for selected ones prepared to emigrate from the British Isles, France, and Portugal, declared in an address to the young men's section of the Young Men's Christian Association here.

"I do not think any boy is a delinquent," the speaker said. "Their errors are largely due to environment and can be corrected by providing improved surroundings."

Two British Cruisers Visit Philadelphia

Are Paying Official Visit to Sequel to Centennial Exposition

Philadelphia—"Two fast cruisers of the British navy—H.M.S. Calcutta and H.M.S. Cornwallis, arrived at the Philadelphia navy yard, to pay an official visit to the Sequel to the Centennial Exposition."

The ships are under the command of Vice-Admiral Sir Walter Cowan, and are in command of the Royal Navy. After an official welcome at the navy yard, Sir Walter, accompanied by his staff, moved to the city hall, where he was greeted by Mayor Kendrick.

ASK FOR HIGHER TARIFF ON FRUITS AND VEGETABLES

Ottawa—The Canadian Horticultural Association wants a seasonal tariff on fruits and vegetables, coming into Canada from the United States and a private sitting of the tariff board.

The horticultural association has presented their argument through the medium of a memorandum submitted to the tariff board, stating that from a survey of conditions in the horticultural areas, it was found that the tariff board had not taken into account the fact that the horticultural industry has been suffering from a shortage of labor.

BRITISH-ITALIAN TREATY SUBJECT OF CRITICISM

Ottawa—The British and Anglo-Italian treaty regarding agreements of economic influence in Abyssinia received the past as a threat against its beneficial impact, which authority of the treaty of the covenant, Great Britain and Italy are bound to respect. The treaty is a reply to the League of Nations treaty for further information has asked Secretary General Sir Eric Drummond to deposit in the League of Nations the treaty.

Repeating his previous arguments against the Anglo-Italian agreement, Sir Taffur says, "The Imperial Association government very naturally is troubled on learning that two great powers are entering into an agreement on their course of action toward a friendly country, which with them is not the League of Nations."
